Instructions for use:

Garment designed to be used under neither exceptional nor extreme weather conditions. Only against minor risks, with no chance of chemical, electrical or thermal danger.

Limits to use:

Do not use this clothing outside of the scope of use defined in the instructions above. Before putting on this garment, check that it's not dirty or worn, it would be less effective. Wearing closed. This garment contains no known carcinogenic or toxic substances, or substances which may cause allergies in sensitive people. The following Table is a guide to illustrate the effect of water vapour permeability on the recommended continuous wearing time of a garment in different ambient temperatures. Recommended maximum continuous wearing time for a complete suit consisting of jacket and trousers without thermal lining

Temperature of working environment	Class 1* Ret > 40	Class 2 20 < Ret =< 40	Class 3 Ret =< 20
25°C	60 min	105 min	205 min
20°C	75 min	250 min	-
15°C	100 min	-	-
10°C	240 min	-	-
5°C	-	-	-

" - " = no limit for wearing time.

Table valid for medium physiological strain (M = 150 W/m²), standard-man, at 50 % relative humidity. and wind speed Va = 0,5 m/s. With effective ventilation openings and/or break periods the time for wearing can be prolonged. (*) For clothing having a class 1 in Ret (evaporative resistance), the wearing time must be limited according to the temperature of the environment of work in accordance with the table above.

Instructions for storage:

To be stored in its original packing in a dry place, sheltered from sun light.

Instructions for cleaning / maintenance:

Hand wash, do not machine wash. Maximal washing temperature: 40°C. Handle with care. No bleach. Do not iron. Steam processes are forbidden. Do not dry clean. Do not remove stains with solvents. Do not tumble dry.
